

# MONITOR INSTALLATION GUIDE

For Interior VESA Mount Configurations

**DUST SHIELD**<sup>®</sup>  
computer enclosures

*\* Note: We recommend that 2 people perform step 3 of this task \**

# 1

Securely Mount Monitor to Monitor Mounting Bracket using VESA hole pattern and proper screws.

Spacers may need to be incorporated by customer based on monitor make and model.

# 2

Securely Adjust Monitor Mounting Bracket to proper width or height (depending on monitor size and DustShield enclosure configuration).

# 3

Hold up bracket attached to monitor to interior of DustShield enclosure – monitor display facing out of the enclosure. Mark proper location for bolt/screw holes to mount the Monitor Mounting Bracket properly to the DustShield enclosure. Drill appropriate sized pilot holes through the DustShield enclosure at properly marked locations.

Fasten the Monitor Mounting Bracket to the DustShield enclosure.
