

# THANK YOU

for purchasing a DustShield™

## SNEEZE SHIELD

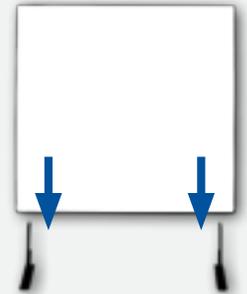

Setup is a SNAP and only takes seconds!

1. Position the feet on counter so they're spaced somewhere between 14.5" and 21.5" apart. *(We recommend about 20")*

2. Place the polycarbonate clear shield into the slots.

*Optional Step : Secure feet to table with double sided mounting tape to prevent movement.*

**Maintenance.** Clear Polycarbonate is easy to clean with a soft cloth, and a simple alcohol solution, or soap and water. *Never use abrasives, or solutions containing ammonia.*

**TELL US ABOUT YOUR ORDER!**
