Create a mini-clean room solution for your rack mount servers, networking, mobile telephony, data transmission, instrumentation or other sensitive electronic systems.

Dustshield™ Telephony and Rack Enclosures house 4-40 RU racks with EIA Standard rails (with 10/32 tapped holes) in quality ABS construction with superior air filtration.

Built-to-order enclosures are configured to your specs with optional cooling, power distribution, cable management, security, and mobility.

Features:

- NEMA 12 standard protection
- NEMA 4 protection upgrade available
- Two colors available: grey or black
- Filters 98% of airborne contaminants
- Contact Sales Associate for available upgrades

Materials:

Constructed of 3/8" thick Industrial Plastic for maximum structural stability. Industrial Plastics are Impact Resistant, Heat Resistant, Corrosion Resistant, RF Equipment Compatible, Post-Industrial Recyclable and have recently been approved by the FDA for food production environments. For all these advantages, Industrial Plastic enclosures are significantly more cost effective than steel enclosures.

Manufacturer's Warranty:

Limited warranty - parts and labor - 5 years

What's in the Box:

DustShield™ Enclosures arrive completely assembled and factory floor ready. Optional bases and cabinets are shipped mounted together with enclosure. Delivered with one DS512 Heavy-Duty Particulate Filter.
